The best materials for your pump

Long service life thanks to research to improve the quality of materials and manufacturing processes.

From raw material to finished product

Our integrated production chain ensures efficient control of the production process, from sourcing to final distribution.

Sustainability and durability

Our pumps are strong and reliable, not only because of the durability of the materials and the solidity of their manufacture, but also because of the availability of spare parts and the network of technical services.

All our pumps are recyclable

95% of the components in our product range are recyclable.

Our applications

Groundwater

From the bottom to the top. So simple.

Maybe we have a well and need a **submersible pump** to bring the water up to the surface, extract it from a tank to drive it to a plantation, a garden or our home. There is a wide range available for any depth, flow rate or pressure.

Supply

Enjoy the best hydraulic comfort

When the pressure or flow are not good enough, we must consider a **pumping solution** to achieve the right hydraulic comfort level. Put in our hands the peace of mind and security of having water available at all times.

Recirculation and filtration

The pump that your pool wants

Moving water is healthy water, a good recirculation and filtration system is crucial to keep the water and the swimming pool in perfect conditions. Furthermore, a **variable-speed** pump helps to reduce the energy consumption, improves the filtration and operates much more quietly.

Evacuation

Doing the dirty work

Garages, gardens, flooded basements or water evacuation systems require drainage pumps. Some of these pumps allow the passage of solid particles and others can even grind them. **Drainage or evacuation pumps** are also applied to empty pools, tanks or ponds.

More than 60 years offering
pumping solutions

GROUNDWATER

From the bottom
up. Simple.

Submersible monoblock centrifugal multistage pump for water supply

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes. Suitable for open wells, ponds and tanks.

Materials

Pump body, suction, discharge, filter and impellers in AISI 304. Pump shaft in AISI 431. Diffusers in technopolymer. Double mechanical seal. O-rings in NBR/EPDM.

Equipment

Check valve not included. Model MA with float switch. Model M/T without float switch. Cable, plug and capacitor: see table.

Motor

Asynchronous 2 poles. IPX8 protection. Class F insulation. Continuous operation. Water cooled motor. Single phase motor with built-in thermal protection.

Range of use

Maximum water temperature 40 °C. Maximum submersion 12m.

Model MA

Model M/T

Stainless steel impellers

External capacitor (optional)

Quiet

Pressure up to 70 m

Flow rate up to 65 l/min

Features table

Submersible 4" wet end

Applications

Assembled on a motor, pumping of clean water for domestic, industrial, agricultural and gardening purposes. Suitable for boreholes.

Materials

Pump body, suction, discharge and pump shaft in AISI 304.
Diffusers and floating impellers in technopolymer.
O-rings in NBR/EPDM.

Equipment

Built-in check valve.
Joint kit according to regulation NEMA MG1-18.388.

Range of use

Maximum water temperature 40 °C.
Maximum quantity of sand in suspension 100 g/m³.

Submersible motor for 4" wet end

Applications

To be assembled on 4" submersible wet end.

Materials

Motor casing and shaft in AISI 304.
O-rings in NBR/EPDM.

Equipment

Cable without plug (see table).
Joint kit according regulation
NEMA MG1-18.388.
External capacitor.

Motor

Asynchronous 2 poles.
IPX8 protection.
Class F insulation.
Continuous operation.
Oil cooled motor.
Single phase motor with built-in thermal protection.

Range of use

Maximum water temperature 35 °C.

Centrifugal single stage pump for water supply, self-priming up to 9m

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Self-priming up to 9m.

Materials

Pump body in AISI 304.
Pump shaft in AISI 431.
Impeller and diffuser in technopolymer.
Delta 1755 impeller in AISI 304.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

No cable.
Handle included.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Single phase motor with built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40 °C.

Prisma 15 Supply | Horizontal surface

Centrifugal multistage pump for water supply

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Silent.
Self-priming up to 2m.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Single phase motor with built-in thermal protection.
Continuous operation.

Materials

Pump body and impellers in AISI 304.
Pump shaft in AISI 431.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Range of use

Maximum water temperature 40 °C.

Equipment

No cable.

Aspri 20 5	234	127	278	82	185	218	118	138	8	1"	15,5

Centrifugal multistage pump for water supply, self-priming up to 9m

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Silent.
Self-priming up to 9m.

Materials

Pump body and impellers in AISI 304.
Pump shaft in AISI 431.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating (Model B in brass).
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

No cable (model B 2m of cable with plug type F).

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Single phase motor with built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40 °C.

Model B

Stainless steel impellers

Self-priming up to 9 m

Easy to maintain

Quiet

Pressure up to 55 m

Flow rate up to 120 l/min

Features table

Centrifugal multistage pump in-line for water supply

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes.

Materials

Pump body and impellers in AISI 304.
 Pump shaft in AISI 420.
 Diffusers in technopolymer.
 Suction, discharge and motor-wet end coupling in cast iron.
 Mechanical seal.
 Motor casing in aluminum.
 O-rings in NBR/EPDM.

Equipment

No cable.
 Counter flanges and gaskets included.
 Motor-wet end coupling system V18-flange C (IEC standard).

Motor

Asynchronous 2 poles.
 IPX4 protection.
 Class F insulation.
 Continuous operation.

Range of use

Maximum water temperature 40 °C.

Stainless steel impellers

Inline connection

Pressure up to 135 m

Centrifugal multistage pump in-line for water supply

Applications

Pumping of clean water for domestic, industrial, agricultural and gardening purposes.

Materials

Pump body and impellers in AISI 304.
 Pump shaft in AISI 420.
 Diffusers in technopolymer.
 Suction, discharge and motor-wet end coupling in cast iron.
 Mechanical seal.
 Motor casing in aluminum.
 O-rings in NBR/EPDM.

Equipment

No cable.
 Counter flanges and gaskets included.
 Motor-wet end coupling system V1-flange FF (IEC standard).

Motor

Asynchronous 2 poles.
 IPX4 protection.
 Class F insulation.
 Continuous operation.

Range of use

Maximum water temperature 40 °C.

Stainless steel impellers

Inline connection

Pressure up to 160 m

Flow rate up to 450 l/min

Supply
Automatic
pressurization

Automatic start and stop device

Applications

Assembled on a pump, automatic start and stop based on water demand.
Adjustable starting pressure Range of use from 1,5 to 2,5 bar.

Materials

Plastic components in technopolymer.
Internal membrane in EPDM.

Equipment

Built-in check valve.
Unions included.
Model NP with cables without plug.
Model 2E with cables and plug type F.
Dry-run protection.
Automatic reset function.

Dry running protection	Automatic reset	Start & stop according to water demand

Dimension and weight

Model	A	B	C	D	E	Kg
Pressdrive 05	213	155	1"	108	195	1,5

Variable frequency drive

Applications

Assembled on a pump, booster set or installed on the wall, adjust the speed automatically to maintain the constant pressure and flow that apartment, building or installation demands at every moment.

Materials

Body in aluminum.
Front cover in technopolymer.

Equipment and features

IPX5 protection.
Maximum ambient temperature 40 °C.
Air cooled motor.
Maximum 4 pumps.
USB port for updating the device's firmware.
Adjustable working frequency.
Inputs:
- 1 analogue 4-20mA with 24V DC power supply.
- 1 digital for the level switch.
Outputs:
- 1 alarm signal.
- Potential-free output (FVC), maximum 1A, NA/NC contacts.
Communication serial port RS 485.
M22 with 2m of cable with plug type F.
T22 and T55 no cable.

Protections

Dry-run protection with automatic reset.
Detection of pressure transducer failure.
Overcurrent and short-circuit with automatic reset.
Power supply voltage with automatic reset.
Internal overtemperature with automatic reset.
Earthing and motor phase error.
Communication error.

Pressure transducer*

Device for digital pressure reading

*Pressure transducer is required for operation.

Automatic set for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Silent.
Self-priming up to 2m.
Adjustable starting pressure Range of use from 1,5 to 2,5 bar.

Materials

Prisma:

Pump body and impellers in AISI 304.
Pump shaft in AISI 431.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating.
Mechanical seal.
Motor casing in aluminum.

O-rings in NBR/EPDM.

Pressdrive:

Plastic components in technopolymer.
Internal membrane in EPDM.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40 °C.

Equipment

Built-in check valve.
Unions included.
2m of cable with plug type F.
Dry-run protection.
Automatic reset function.

Operation

Automatic start and stop based on water demand.

Complete set	Plug&Play	Quiet	Start & stop according to water demand

Automatic set for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
 Silent.
 Self-priming up to 2m.
 Adjustable starting pressure Range of use from 1,5 to 2,5 bar.

Materials

Prisma:

Pump body and impellers in AISI 304.
 Pump shaft in AISI 431.
 Diffusers in technopolymer.
 Suction and discharge in cast iron with cathoporesis coating.
 Mechanical seal.
 Motor casing in aluminum.
 O-rings in NBR/EPDM.
Pressdrive 05:
 Plastic components in technopolymer.
 Internal membrane in EPDM.

Motor

Asynchronous 2 poles.
 IPX5 protection.
 Class F insulation.
 Built-in thermal protection.
 Continuous operation.

Range of use

Maximum water temperature 40 °C.

Equipment

Built-in check valve.
 Unions included.
 2m of cable with plug type F.
 Dry-run protection.
 Automatic reset function.

Operation

Automatic start and stop based on water demand.

Complete set	Plug&Play	Quiet	Start & stop according to water demand

Automatic submersible monoblock centrifugal multistage pump for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Suitable for open wells, ponds and tanks.
Starting pressure 2 bar.

Materials

Pump body, suction, discharge, filter and impellers in AISI 304.
Pump shaft in AISI 431.
Diffusers in technopolymer.
Double mechanical seal.
O-rings in NBR/EPDM.

Equipment

Built-in check valve.
15m of cable without plug.
Internal capacitor.
Kit Press included.
Dry-run protection.
Automatic reset function.

Motor

Asynchronous 2 poles.
IPX8 protection.
Class F insulation.
Continuous operation.
Water cooled motor.
Built-in thermal protection.

Range of use

Maximum water temperature 40 °C.
Maximum submersion 12m.

Operation

Automatic start and stop based on water demand.

Automatic booster set with single speed for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Fixed speed working pressure.

Materials

Multi:

Pump body and impellers in AISI 304.
Pump shaft in AISI 420.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.
Manifolds: AISI 304.
Valves and fittings: Brass.

Equipment included

Control drive.
Discharge manifold.
Control panel.
Valves.
Fittings.
Check valves.
Pressure transducer.
Metallic base.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Continuous operation.

Range of use

Maximum water temperature 40 °C.

Functions and protections

Pressure transducer failure.
Overcurrent and short-circuit with automatic reset.

Operation

Automatic start and stop based on water demand. The set works in fixed speed.

Automatic booster set with variable speed for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Adjustable working pressure.

Materials

Multi:

Pump body and impellers in AISI 304.
Pump shaft in AISI 420.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.
Manifolds: AISI 304.
Valves and fittings: Brass.

Equipment included

Pump.
Speedrive V2.
Discharge manifold.
Control panel.
Valves.
Fittings.
Check valves.
Pressure tank (20l).
Pressure transducer.
Metallic base.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Continuous operation.

Range of use

Maximum water temperature 40 °C.

Functions and protections

Dry-run protection with automatic reset function.
Detection of pressure transducer failure.
Overcurrent and short-circuit with automatic reset.
Power supply voltage with automatic reset.
Internal overtemperature with automatic reset.
Earthing and motor phase error.
Communication error.

Operation

Variable speed to maintain the constant pressure and flow that apartment, building or installation demands at every moment.

Complete set

Plug&Play

Automatic booster set with variable speed for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Adjustable working pressure.

Materials

Multi and VE:

Pump body and impellers in AISI 304.
Pump shaft in AISI 420.
Diffusers in technopolymer.
Suction and discharge in cast iron with cathaphoresis coating.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Multi VS:

Pump body, suction, discharge, diffusers and impellers in AISI 304.
Mechanical seal.
Motor casing in aluminum.
O-rings in FPM.

Manifolds: AISI 304.

Valves and fittings: Brass.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Continuous operation.

Range of use

Maximum water temperature:
CKE with Multi and VE 40 °C.
CKE with Multi VS 120 °C.

Functions and protections

Dry-run protection with automatic reset function.
Detection of pressure transducer failure.
Overcurrent and short-circuit with automatic reset.
Power supply voltage with automatic reset.
Internal overtemperature with automatic reset.
Earthing and motor phase error.
Communication error.

Operation

Variable speed to maintain the constant pressure and flow that apartment, building or installation demands at every moment.

Equipment included

Pump (x3).
Speedrive V2 (x3).
Discharge manifold.
Model ASP with suction manifold.
Control panel.
Valves.
Fittings.
Check valves.
Pressure tank (20l).
Pressure transducer.
Metallic base.

Complete set	Plug&Play	Ultra-quiet
Constant pressure	Maximum hydraulic comfort	Residential, commercial and agricultural use

Automatic booster set with variable speed for water supply

Applications

Automatic pumping of clean water for domestic, industrial, agricultural and gardening purposes.
Adjustable working pressure.

Materials

Multi and VE:

Pump body and impellers in AISI 304.
Pump shaft in AISI 420.
Diffusers in technopolymer.
Suction and discharge in cast iron with cataphoresis coating.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Multi VS:

Pump body, suction, discharge, diffusers and impellers in AISI 304.
Mechanical seal.
Motor casing in aluminum.
O-rings in FPM.

Manifolds: AISI 304.

Valves and fittings: Brass.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Continuous operation.

Range of use

Maximum water temperature:
CKE with Multi and VE 40 °C.
CKE with Multi VS 120 °C.

Functions and protections

Dry-run protection with automatic reset function.
Detection of pressure transducer failure.
Overcurrent and short-circuit with automatic reset.
Power supply voltage with automatic reset.
Internal overtemperature with automatic reset.
Earthing and motor phase error.
Communication error.

Operation

Variable speed to maintain the constant pressure and flow that apartment, building or installation demands at every moment.

Equipment included

Pump (x4).
Speedrive V2 (x4).
Discharge manifold.
Model ASP with suction manifold.
Control panel.
Valves.
Fittings.
Check valves.
Pressure tank (20l).
Pressure transducer.
Metallic base.

BOOSTER SETS

Variable speed to maintain the constant pressure and flow that apartment, building or installation demands at every moment.

Sets suitable for all types of motors and power ratings.

Automatic booster set with variable speed for water supply.

Suitable for residential and commercial buildings, industrial applications and agricultural irrigation.

Product range overview

CKDA Set with two pumps.
Flow rate up to 50 m³/h | Pressure up to 200 m.w.c.

CKTA Set with three pumps.
Flow rate up to 75 m³/h | Pressure up to 200 m.w.c.

CKCA Set with four pumps.
Flow rate up to 100 m³/h | Pressure up to 200 m.w.c.

Other configurations and performances on request.

FIRE-FIGHTING SETS

Fire-fighting sets in accordance with the regulations.

More than **60 years of experience** in the sector, a wide range of quality products and a personalized service that responds to all your needs.

Product range overview

- E** Jockey + Electric driven pump.
Flow rate up to 120 m³/h | Pressure up to 90 m.w.c.

- D** Jockey + Diesel driven pump.
Flow rate up to 120 m³/h | Pressure up to 90 m.w.c.

- ED** Jockey + Electric driven pump + Diesel driven pump.
Flow rate up to 120 m³/h | Pressure up to 90 m.w.c.

- DD** Jockey + Two diesel driven pumps.
Flow rate up to 120 m³/h | Pressure up to 90 m.w.c.

Other configurations and performances on request.

RECIRCULATION AND FILTRATION

—
The pump your
pool needs

Centrifugal single stage pump for water recirculation and filtration

Applications

Water recirculation and filtration for small swimming pools.
Silent.

Materials

Pump body, impeller, diffuser, suction and discharge in technopolymer.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40 °C.
Suitable for salt water up to 7 g/l.

Equipment

2m of cable with plug type F.
Hose connection of 32mm or 38mm.

Hose connection	With cable and plug	Above ground pools	Flow rate up to 4 m ³ /h

Features table

Model	I [A]	P1 [kW]	P2		c [μF]	l/min	10	25	50	75	100	Code
	1~230V	1~	[kW]	[HP]		m ³ /h	0,6	1,5	3	4,5	6

Silenplus 1 **Recirculation and filtration** | Recirculation

Centrifugal single stage pump with variable speed for water recirculation and filtration

Applications

Water recirculation and filtration for medium swimming pools.
Silent.
Self-priming up to 4m.

Materials

Pump body, impeller, diffuser, suction and discharge in technopolymer.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

Control System included.
2m of cable with plug type F.
Unions included 50mm.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40° C.
Suitable for salt water up to 7 g/l.

Operation

Automatic speed variation to adapt to the swimming pool working cycles.

Control System

Device that transmits the valve's position to the pump so that it activates the working cycle according to the valve's position.

Silenplus 3 **Recirculation and filtration** | Recirculation

Centrifugal single stage pump with variable speed for water recirculation and filtration

Applications

Water recirculation and filtration for large swimming pools.
Silent.
Self-priming up to 4m.

Materials

Pump body, impeller, diffuser, suction and discharge in technopolymer.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

Control System included.
2m of cable with plug type F.
Unions included 63mm.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40° C.
Suitable for salt water up to 7 g/l.

Operation

Automatic speed variation to adapt to the swimming pool working cycles.

Control System

Device that transmits the valve's position to the pump so that it activates the working cycle according to the valve's position.

Set for water recirculation and filtration

Applications

Water recirculation and filtration for small swimming pools.
Silent.

Materials

Pump:

Pump body, impeller, diffuser, suction and discharge in technopolymer.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.

O-rings in NBR/EPDM.

Filter:

Polyethylene.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Built-in thermal protection.
Continuous operation.

Range of use

Maximum water temperature 40 °C.
Suitable for salt water up to 7 g/l.

Equipment

2m of cable with plug type F.
Fittings, base and valve.
Unions included.

Set completo

Easy to install

Above ground pools

Sand filter for water filtration

Filterkit Base

Filter with valve made of polyethylene resistant to chemical and weather agents.
Blow moulded in single piece with base built into the filter.
With top mount 6-way valve.

Features

Maximum working pressure 2,5 bar.
Connection of 1½".
Fitted with pressure gauge and air valve.
Double drainage in the lower section of the filter, ½" to totally empty the filter and ¼" to empty water without loss of sand.
Suitable for salt water up to 7 g/l.

Residential swimming pool

Sand filter for water filtration

Filterkit Plus

Filter with valve made of polypropylene resistant to chemical and weather agents.
Injection moulded with the two halves thermally welded.
With side mount 6-way valve.

Features

Maximum working pressure 3,5 bar.
Connection of 1½" for 520 and 620 models and 2" connection for 760 model.
Fitted with pressure gauge and air valve.
Double drainage in the lower section of the filter, 1½" to totally empty the filter and ½" to empty water without loss of sand.
Suitable for salt water up to 7 g/l.

Centrifugal multistage pump for pool cleaners

Applications

Booster pump for pool cleaners.
Designed to operate with chlorinated and salty water.

Materials

Pump body, diffusers, suction and discharge in technopolymer.
Impellers in AISI 316.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

No cable.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.

Centrifugal single stage pump for water stream

Applications

Generation of a strong water stream to transform swimming pools into a place for sport and leisure.
Self-priming up to 4m.

Materials

Pump body, impeller, diffuser, suction and discharge in technopolymer.
Pump shaft in AISI 431.
Mechanical seal.
Motor casing in aluminum.
O-rings in NBR/EPDM.

Equipment

No cable.
Unions not included.

Motor

Asynchronous 2 poles.
IPX5 protection.
Class F insulation.
Single phase motor with built-in thermal protection.
Continuous operation.

EVACUATION

Taking care of
the dirty work

Portable submersible pump for waste water

Applications

Evacuation, transfer and emptying of waste water and emptying of swimming pools.

Materials

Pump in technopolymer.
Pump shaft in AISI 420.
Impeller in technopolymer.
Lip seal.
O-rings in NBR/EPDM.
Model H with internal parts in AISI 316.

Motor

Asynchronous 2 poles.
IPX8 protection.
Class F insulation.
Continuous operation.
Built-in thermal protection.

Range of use

Maximum water temperature 40 °C.
Maximum solids passage Ø 10mm.
Maximum submersion 2m.

Equipment

Float switch and 10m of cable with plug type F.
Internal capacitor.

Easy to use

Flow rate up to 260 l/min

Vigicor	396	471	148	151	57	191	1 1/4"	15,5

Drain 100 **Evacuation | Drainage**

Submersible pump for waste water

Applications

Evacuation, transfer and emptying of waste water.

Materials

Pump body in AISI 304.
Pump shaft in AISI 420.
Impeller in technopolymer.
Suction and discharge in cast iron.
Double mechanical seal.
O-rings in NBR/EPDM.

Motor

Asynchronous 2 poles.
IPX8 protection.
Continuous operation.
Class F insulation.
Built-in thermal protection.

Range of use

Maximum water temperature 40 °C.
Maximum solids passage Ø 7mm.
Maximum submersion 7m.

Equipment

Float switch and 10m of cable with plug type F.
External capacitor with capacitor box included.

Box with external capacitor

Very compact

Very reliable

Flow rate up to 320 l/min

Features table

Model	I [A]	P1 [kW]	P2		c [µF]	l/min	25	50	100	150	200	250	300	320	Code

Drainex 100 **Evacuation | Drainage**

Submersible pump for waste water with solids in suspension, vortex system

Applications

Evacuation, transfer and emptying of waste water with solids in suspension.

Materials

Pump body in AISI 304.
Pump shaft in AISI 420.
Suction and discharge in cast iron.
Impeller in brass.
Double mechanical seal.
O-rings in NBR/EPDM.

Motor

Asynchronous 2 poles.
IPX8 protection.
Continuous operation.
Class F insulation.
Built-in thermal protection.

Range of use

Maximum water temperature 40 °C.
Maximum solids passage Ø 35mm.
Maximum submersion 7m.

Equipment

Float switch and 10m of cable with plug type F.
External capacitor with capacitor box included.

Brass impellers

Solids throughput

Box with external capacitor

Very compact

Very reliable

Flow rate up to 280 l/min

Set for waste water with solids in suspension, vortex system

Applications

Collection, storage and evacuation of waste water with solids in suspension. For domestic, industrial, agricultural and gardening purposes.

Materials

Drainex 201:

Pump and impeller in cast iron.
Pump shaft in AISI 420.
Mechanical seal.
O-rings in NBR.
Tank: Polyethylene.

Equipment

Built-in check valve.
10m of cable with plug type F.
Internal capacitor.
Control panel included.

Motor

Asynchronous 2 poles.
IPX8 protection.
Class F insulation.
Continuous operation.
Single phase motor with built-in thermal protection.

Range of use

Maximum water temperature 40 °C.
Maximum solids passage Ø 45mm.

INFORMATION

Quality at ESPA is much more than an objective or a market requirement; it is something that is part of our way of being and corporate culture.

ESPA guarantees the complete product cycle: design, development, production, business, after-sales service and environmental management, certified by **ISO 9001:2015** (quality management) and **ISO 14001:2015** (environmental management) standards.

ESPA fully guarantees its products in accordance with the Legislative Decree 1/2007 of November 16th, thanks to a quality assurance system and exhaustive in-process and final control procedures.

Millions of ESPA pumps are working at full capacity all over the world. Thousands of installations show the confidence that professionals and users have placed in ESPA.

All the products in this catalogue comply with the following standards:

- › **Directive 2006/42/CE** about machine security. Standard EN 809 and EN 60204-1.
- › **Directive 2014/35/UE** about low voltage. Standards EN 60335-1 and EN 60335-2-41.
- › **Directive 2014/30/UE** about electromagnetic compatibility. Standards EN 61000-6-1 and EN 61000-6-3.
- › **Directive 2000/14/CE** about sound emissions. EN-ISO 3744
- › **Directive 2009/125/CE** about eco-design of energy-related products. Regulation (EU) 2019/1781 for electric motors and variable speed drives. Standard EN 60034-30.

We design

We produce

We distribute

#espamoments

In ESPA we want to **go further**. We not only want our products to be in our clients' homes, but to **be part of their lives**. Nourish them with more comfortable and pleasant **moments**. We believe that little things around us are what feed our well-being.

With **#espamoments** hashtag we would like you to tell us when we come along with you. We will also try to tell you how we can contribute to improve your life. **Follow us on our social media**. We have something to tell you.
